

FZFCONMY52559492

>VALUE

The diagram shows a DNA sequence represented by two rows of red rectangular blocks. The top row contains 20 blocks, and the bottom row contains 21 blocks. A yellow bracket is positioned below the first 19 blocks of the top row and the first 20 blocks of the bottom row. The text 'FZFCONMY52559492' is centered above the top row, and '>VALUE' is centered below the bottom row.
